

Nordec Quality Policy

We in Nordec

- commit to fulfil quality requirements of customers and authorities
- commit to continuously improve the quality of our products, operations, processes and management system
- gather customer and project feedback as basis for this development work
- consistently develop our competences and secure that all our employees know their responsibilities

Our customers

- get early phase support to find out best and most innovated construction products and solutions
- will receive design, project management and installation services that exceed their expectations
- are satisfied with our products and project delivery quality
- get product, project and service deliveries on time
